

Is the C-Leg® Right for Me?

The C-Leg® is ideal for people who¹:

- Want the established industry Standard of Care;
- Currently are or have the potential to be an unlimited community ambulator;
- Can take advantage of a high degree of customization and control of the prosthetic knee;
- Can take advantage of more than one activity mode for varied activities such as bicycling or job tasks;
- Often walk on uneven ground or slopes, or descend stairs;
- Have the ability or potential for long distance walking with varying speeds;
- Are involved in activities requiring a high level of stance phase security as well as efficient swing phase control;
- Need to stand for long periods of time, and thus are able to utilize Standing Mode with a degree of flexion between 7° and 70° while weight-bearing;
- Value the significant body of clinical evidence demonstrating increased security, energy efficiency and cost effectiveness when compared to other prosthetic knees; or
- Can benefit from a weight limit of up to 300 lbs².

1. The indications/contraindications are recommendations by the manufacturer. These and possible additional indications must be evaluated by the prescriber depending on the individual case.

2. The higher weight limit requires tube adapters 2R82=120-240 sizes.
